Dear Jane,

Below is a list of items for you to include in the GIS budget for next year. I am using the current prices as of June 1, 2007.

Software Maintenance:

ESRI ArcView Standalone $400 per license per year

ESRI ArcView Concurrent $700 per license per year

geogear editor – $220 per license

geogear navigator - $220 per license

geogear agland assessment - $650 per license

Total Software Maintenance Cost Estimate: $4,170.00
        2 ESRI ArcView Standalones: $ 800
        2 ESRI Concurrent licenses: $1400
        3 geogear editors: $ 660   +660
        3 geogear navigators: $ 660   +660
        1 geogear agland assessment:$ 650

*note – this does not include the ArcView license in the Health Department and the ArcEditor license in the Purdue Extension Office.

Support Contract:

The Schneider Corporation offers different levels of support to help clients with editing and maintaining their GIS data. Below are three levels of support offered by The Schneider Corporation. If a support contract is selected, it will begin after the parcel data conversion project is complete.

Standard - $2,900
  - **Unlimited** phone (includes toll free number), fax, and e-mail support relating to editing and maintaining GIS data and ArcGIS desktop software for **all** callers within the contracted organization. Website support and maintenance is considered to be a separate function and associated with a web hosting and maintenance agreement. Items that are considered to be associated with website support / maintenance are web-based initiatives (i.e. website support, custom web solutions, ArcIMS configuration).
  - **Remote access support** where available (depends upon system configuration and software availability).
  - **Annual GIS data tune-up** including such data integrity checks as topology checks, acreage divergence analysis, orphan and misplaced parcel checks. Data will be scrubbed using the most up to date QC checks currently in use,

with a professional report clearly outlining the results, and a recommended priority and suggestions for addressing.
- Up to **4 complimentary admissions** to Schneider's Users' Conferences.

Plus - $4,900

- **Unlimited** phone (includes toll free number), fax, and e-mail support relating to editing and maintaining GIS data and ArcGIS desktop software for **all** callers within the contracted organization. Website support and maintenance is considered to be a separate function and associated with a web hosting and maintenance agreement. Items that are considered to be associated with website support / maintenance are web-based initiatives (i.e. website support, custom web solutions, ArcIMS configuration).
- **Remote access support** where available (depends upon system configuration and software availability).
- **Annual GIS data tune-up** including such data integrity checks as topology checks, acreage divergence analysis, orphan and misplaced parcel checks. Data will be scrubbed using the most up to date QC checks currently in use, with a professional report clearly outlining the results, and a recommended priority and suggestions for addressing.
- **2 days of consulting support**, on-site as needed, including such activities as assistance with other system integrations to the GIS, assistance with applying GIS to specific tasks, training, custom programming, and/or data maintenance. All staff time and travel expenses are included (additional charges may apply if additional software/hardware is required).
- Up to **4 complimentary admissions** to Schneider's Users' Conferences.

Enhanced - $6,800

- **Unlimited** phone (includes toll free number), fax, and e-mail support relating to editing and maintaining GIS data and ArcGIS desktop software for **all** callers within the contracted organization. Website support and maintenance is considered to be a separate function and associated with a web hosting and maintenance agreement. Items that are considered to be associated with website support / maintenance are web-based initiatives (i.e. website support, custom web solutions, ArcIMS configuration).
- **Remote access support** where available (depends upon system configuration and software availability).
- **Annual GIS data tune-up** including such data integrity checks as topology checks, acreage divergence analysis, orphan and misplaced parcel checks. Data will be scrubbed using the most up to date QC checks currently in use, with a professional report clearly outlining the results, and a recommended priority and suggestions for addressing.
- **2 seats** in a scheduled Introduction to ArcGIS I class or 1 seat in an Introduction to ArcGIS II class at one of Schneider's ESRI Authorized Partner Learning Centers in Indianapolis, IN or Ames, IA.
- **2 seats** in a scheduled Introduction to GeoGear class at one of Schneider's Learning Centers in Indianapolis, IN or Ames, IA.
- Up to **2** ESRI authored **virtual campus class**.
- **2 days of consulting support**, on-site as needed, including such activities as assistance with other system integrations to the GIS, assistance with applying GIS to specific tasks, training, custom programming, and/or data maintenance. All staff time and travel expenses are included (additional charges may apply if additional software/hardware is required).
- Up to **4 complimentary admissions** to Schneider's Users' Conferences.
